**Description:** This section allows the Department to refund monies to former clients when they leave the care of the department and leave personal funds in the custody of the department. After one year from the date of death, release, escape, or departure, if any money remains in the custody of the facility and the owner cannot be located, money is disposed of in the following manner: Amounts less than \$100 shall be deposited into the Mental Health Trust fund and can no longer be claimed. Amounts of \$100 or more are deposited to General Revenue in an account designated as the Abandoned Fund account and claims may be made for up to a period of two years after deposit into the fund. After two years, unclaimed money is transferred from the Abandoned Fund Account to the credit of the Mental Health Trust Fund.

### Office of the Director Medicaid Payment Related to State Operated ICF/IID Upper Payment Limit Claim Payments Section 10.055

Page 278

**Description:** This authority is needed for Medicaid payments related to state-operated Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID) Upper Payment Limit (UPL) claim payments. Federal regulations permit a Medicaid claim based on an estimated maximum calculation using Medicare rules. The maximum amount that could be paid is called the Upper Payment Limit (UPL). This authority provides the mechanism to allow the Department of Mental Health to capture additional federal funds from the UPL for state-operated ICF/IID facilities. UPL was established in 1981 to set a maximum ceiling on payments to facilities, allow states flexibility to pay providers differently accounting for higher costs, set reasonable rates reflecting the volume and cost of Medicaid services and ensure that safety net services would be sufficiently funded.

# Office of the Director IGT DMH Medicaid Transfer to GR Section 10.065

Page 288

**Description:** Allows for the transfer of Medicaid earnings generated from state-operated programs to reimburse General Revenue. Federal Medicaid regulation requires state and local governmental units to transfer funds to the Department of Social Services as the non-federal share of Medicaid payments in order to draw federal participation. These transfers are called intergovernmental transfers. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. This core allows DMH to deposit state match received from DSS into DMH Federal Funds and then transfer these funds into GR to reflect a non-count from DSS to GR.
